

ab solutions offer a completed service from the design team, to completed projects, encompassing installation and project management. The company has established a strong reputation in the west of Ireland and surrounding areas offering an excellent list of trades people. Sound relationships are achieved due to clear and practical direction, organisation and planning. This aspect of the business appeals to clients who have come to appreciate the benefits of a turn key service.

design

The key to a successful bar is a precise strategy, careful planning and imaginative design. Our bartender and F2 stainless steel underbar systems bottle coolers are designed to match this philosophy, combining modern styling, tough materials and components in modular units. Our design incorporates dedicated staff workstation allowing staff to serve customers faster and more efficiently.

- fit-out
- signage
- design 2d - 3d
- 3d animation
- project management
- branding - graphic design
- eho - fire officer compliance
- planning permission - change of usage

ab solutions offer a bespoke service in cutting edge design. The design team clearly love their work and each client's brief is interpreted with style and flair. The expertise is on hand to project manage every stage from concept to completion. We design to suit location, budget and above all - the client.

about us

process

Deciding the following before the design

This process can save you thousands.

- ◆ Type of menu
- ◆ Equipment requirement
- ◆ Labour content
- ◆ Where is receiving goods area?
- ◆ Is planning required?
- ◆ Meeting EHO - fire officer
- ◆ Design for maximum capacity
